SPREAD **ISLAM** WORLDWIDE

# Makkah Digital Coin and Muslim Digital Coin: Two Names, One Project

**Makkah Digital Coin (MDC)** and **Muslim Digital Coin** represent two identities of the same cryptocurrency project aligned with the principles of Islam.

- **Makkah Digital Coin** resonates especially with those who hold a deep connection to Makkah, the spiritual heart of Islam.
- **Muslim Digital Coin** - on the other hand, addresses the global Muslim community as a whole, focusing on the universal values of Islam.

These two brands are complementary and part of a unified ecosystem that serves the same ethical, and religious objectives. Whether called Makkah or Muslim, MDC embodies the same core values as a unified cryptocurrency for the Islamic world.

# Abstract .

**Halal** is derived from the Qur'an and Hadith (the Prophet Muhammad's example) It serves as a set of standards that have been followed throughout generations of Islamic practice. Our cryptocurrency, **MDC**, is the only 100 percent halal coin in the Muslim world.

**Zakat** is a tax on Muslims' wealth collected to return to its rightful owners, the Muslim poor and those named by Allah in the Quran. We are creating the first cryptocurrency aligned with Muslim practices. As such, MDC respects, facilitates, motivates, and rewards the spread and practice of the Five Islamic Pillars based on Zakat.

**Muslims** have always exhibited concern for others on the humanitarian level. With MDC, we provide tangible assistance to the world's most vulnerable: the impoverished, destitute, hungry, thirsty, afflicted, war-torn, and the bereaved - all in a timely and dignified manner.

**Allah (SWT) tells us in the Holy Qur'an:**  
"Not a leaf falls but that He knows it."  
[Al An'am, 6:59]

# Introduction to MDC .

The purpose is to raise and spread the awareness of the Islamic religion (including to non-Muslims who may wish to convert to Islam) worldwide, using social media and new technologies. It should facilitate, motivate and reward Muslims to apply the Five Pillars of Islam. Any investor who uses MDC contributes to the welfare and expansion of Islam across the world.

The digital world is growing exponentially, with people shifting their physical assets to digital assets. Cryptocurrency is one of the best illustrations of the shift toward the digital world due to the market performance of several crypto coins. Decentralization is the foundation of modern blockchain technology and the driving force behind the growth and success of cryptocurrencies.

The Makkah Digital Coin (MDC) DAO is a unique, community-driven cryptocurrency with no involvement of a third centralized party that manages assets as a means of hedging against the broader cryptocurrency market. MDC benefits holders by using the liquidity pool as a means of storing and investing their expenses and trading fees, putting upward pressure on the coin's value.

Decentralization improves security, privacy, and safety - three key attributes that decrease corporate risk and provide transparency.

MDC is the only Halal crypto coin in the Muslim world as it complies with Islamic law and is based on the principles of Zakat, Islam's third and central pillar. MDC is based on a very simple idea:

- 
- **To raise and spread the awareness of the Islamic religion (including non Muslims who may wish to convert to Islam) worldwide using social media and new technologies.**
  - **To facilitate, motivate and reward Muslims to apply the five pillars of Islam.**
  - **Any investor who uses MDC contributes to the welfare and expansion of Islam in the world.**

MDC facilitates financial exchanges amongst Muslims, providing a hedge against currency inflation (the flexibility to burn coins for deflationary purposes), while drastically lowering transaction costs. MDC is a one-of-a-kind project that pays holders for their contributions that provide the opportunity for the needy to accomplish The Five Pillars of Islam.

**“ My lord freely dispenses or restricts his gifts to whomever he wills among these servants. And any expense you make for good, He replaces it and He is the best of Donors” ” (Qur'an 34/39).**

# Makkah Digital Coin DAO .

MDC's DAO structure – our Decentralized Autonomous Organization.

The DAO gives token holders the power to influence the project's future, making them active participants in shaping its direction.

While the full Shariah-compliant governance framework is still being finalized, our vision is clear: we are building a DAO guided by Islamic ethics. To ensure this, we plan to work closely with respected scholars and advisors who will help guide decisions and keep the DAO aligned with faith-based values.

It's a unique model — blending blockchain decentralization with religious oversight — and it reflects our goal to build not just a token, but a spiritually grounded ecosystem.

The DAO is not a priority for the initial launch phase. Our current focus is on listing MDC on major exchanges and ensuring regulatory and Shariah compliance.

The DAO will be implemented at a later stage once the ecosystem and user base are more established.

# Step by Step .

## What is HALAL

Halal is an Arabic word meaning permissible according to Islamic Sharia law; it can refer to both goods and services acceptable to Muslims.

## Why MDC is 100 % HALAL

MDC collects Zakat (Third Pillar of Islam) Zakat is used to help Muslims accomplish the Five Pillars of Islam

- **Shahadah** – Declaration of faith: **First Pillar**
- **Salat** – Prayer: **Second Pillar**
- **Zakat** – Alms-giving: **Third Pillar**
- **Sawm** – Fasting: **Fourth Pillar**
- **Hajj** – Pilgrimage to Makkah: **Fifth Pillar**

## Makkah Digital Coin is on Ethereum blockchain and complies with Sharia principles

- Prohibition of Riba (Usury/Interest)
- Prohibition of Gharar (Excessive Uncertainty)
- Prohibition of Haram Activities
- Transparency and Honesty

Ethereum (ETH): Considered halal if used for smart contracts and decentralized applications, provided they comply with Sharia principles

## What is Zakat ?

Zakat is the third pillar of the Five Pillars of Islam that focuses on giving money to the poor. Muslims believe it is their duty to ensure Allah's wealth has been distributed equally as everyone is the same and Allah created everyone equally.

# How MDC pays Zakat ?

- The Islamic Fund wallet contains 21% of total supply, each lunar year 2.5% of the shares are sent to the Zakat wallet.
- Founders and early investors will donate 2.5% each year of the coins sold to the Zakat wallet.
- The team and advisors, ambassadors wallets will donate 2.5% each year of the coins sold to the Zakat wallet.
- Every lunar year following the exchanges listing date, the Zakat wallet will be distributed to accomplish the other Four Pillars of Islam.
- **Every lunar year, at the discretion of the team and based on the inflation of the coin, portion of the Zakat wallet will be redistributed.**

Islamic fund wallet, team and advisors, founders & early investors and ambassadors are subject to Zakat when selling tokens.

**Investors are not subject to Zakat when buying or selling MDC.**

## What is Shahadah?

The Shahadah” is the first and most important pillar of Islam. It’s the first step in Islam to declare that there is no God but Allah, and Muhammad is the last prophet and messenger sent by Allah Almighty.

## What is Salat?

“Salah” or “Salat” refers to the Muslim’s daily prayer and is the second pillar of Islam. It’s a physical, mental, and spiritual act of worship performed 5 times every day at prescribed times.

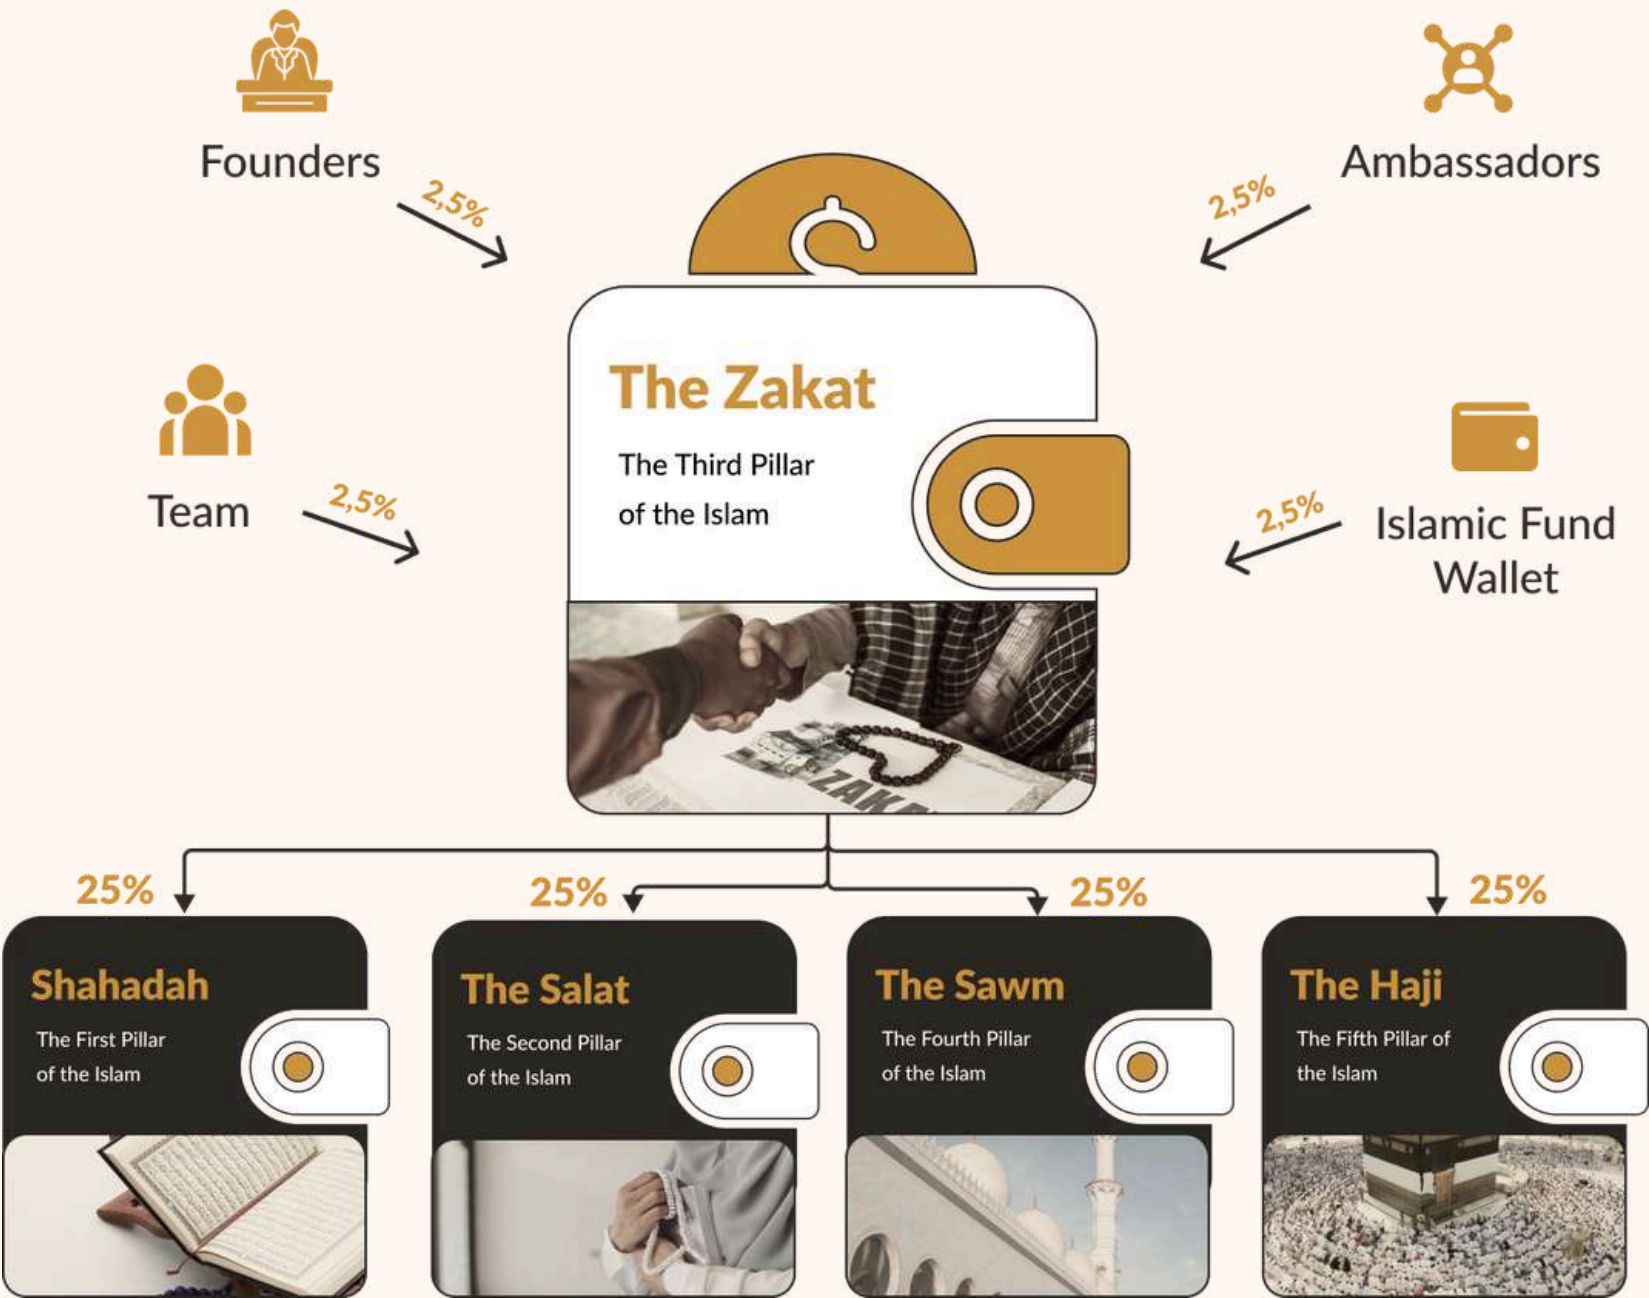

# What is Sawm?

“Sawm” or “fasting” reminds Muslims of the teachings of the Qur’an because the entire Qur’an is usually recited throughout this month. It unites them because they are all fasting and breaking the fast together. It focuses them on their faith and stops them from making the desires of the body become more important than worshipping Allah (SWT).

# What is Hajj ?

The Muslim Pilgrimage to Makkah takes place in the last month of the year and all Muslims are expected to make it at least once during their lifetimes. It strips away everything related to societal standards, wealth, and pride. In the Hajj, all individuals are equal in Allah’s eyes.

# Zakat system .

The zakat system has many benefits, including the circulation of wealth, fraternity, and the promotion of self-respect. No one wants to intentionally invest in something that results in a loss. Before investing their time, effort, and energy, everyone wants to be confident in the outcome. Allah (SWT) has informed us that we will not lose money with Zakat; it is about the generation of MDC coin to be donated to the poor to perform the Five Pillars of Islam.

**MDC coin generates Zakat. During each lunar New Year, 2.5% of the shares held by the Islamic Fund wallet, and all the coins sold by the team & advisors, founders & investors and ambassadors, will be sent to the Zakat wallet to be redistributed as follows:**

**Investors are not subject to Zakat when buying or selling MDC.**

## Shahadah

25% of the Zakat collected will be used to make people worldwide aware that "There is no God but Allah and Muhammad is his messenger" by using social medias and new technologies.

## Sawm

25% of the zakat collected will be used to help mosques worldwide to organize and pay for IFTAR & SUHUR (the evening meal with which Muslims end their daily Ramadan fast at sunset and the morning prefast meal before sunrise) for muslims in need.

## Hajj

25% of the Zakat collected will be used to help individuals wishing to perform the Hajj in Makkah who do not have the financial resources to do so. In fact, relatively few Muslims have made the journey to Makkah. Research has surveyed Muslims in 39 countries, finding that a median of 5 to 9% have made the trip to Saudi Arabia. Those living closest to Makkah were more likely to have performed the Hajj.

## Salat

25% of the Zakat collected will be used to help Muslims pray by providing for those in financial needs with The Holy Quran, Muslim Prayer Books, Muslim Prayer Rugs while also improving the basic facilities of the mosques.

# MDC Distribution .

41.5%

Exchanges Liquidity and deflationary incentives only - No Zakat payable as it is for market liquidity and deflationary incentives only.

- 100% unlocked from day one

21%

Is stored in a wallet dedicated to the Islamic Fund: Every lunar year after the exchanges listings date, 2.5% of the Islamic Fund wallet will be released to the Zakat wallet.

- First year - 2.5% unlocked will be sent to Zakat wallet (Locked 97.5%)
- Second year - 2.5% unlocked will be sent to Zakat wallet (Locked 95.06%)
- Third year - 2.5% unlocked will be sent to Zakat wallet (Locked 92.68%)
- Fourth year - 2.5% unlocked will be sent to Zakat wallet (Locked 90.36%)
- Same for every next years.

16%

Team & Advisors: subject to pay to Zakat wallet (2.5%) of each coin sold.

- 10% unlocked after 6 months
- 20% unlocked after 12 months
- 30% unlocked after 18 months
- 40% unlocked after 24 months
- 50% unlocked after 30 months
- 60% unlocked after 36 months
- 80% unlocked after 42 months
- 100% unlocked after 48 months

8.5%

Founders & Early Investors: subject to pay to Zakat wallet (2.5%) of each coin sold

- 30% unlocked after 6 months
- 46% unlocked after 12 months
- 62% unlocked after 18 months
- 77% unlocked after 24 months
- 93% unlocked after 30 months
- 100% unlocked after 36 months

6%

Marketing: not subject to pay to Zakat.

- 100% unlocked from day one

4.5%

Ambassadors: subject to pay to the Zakat wallet (2.5%) on each coin sold.

- 100% unlocked from day one

2.5%

Learn Islam & earn platform: not subject to pay to Zakat.

- 100% unlocked after 12 months

All of the collected Zakat will pool in Zakat wallet and be redistributed each lunar year after the exchanges listing date.

**Every lunar year, at the discretion of the team and based on the inflation of the coin, portion of the Zakat wallet will be redistributed.**

# Importance of Zakat .

## Purification

Zakat purifies the giver's possessions as well as his or her spirituality. It instills self-control and demonstrates submission to Allah S.W.T

## Become Prosperous Muslims

Giving Zakat demonstrates that a person actively follows Allah S.W.T. Obedience to his rules offers good fortune in this life and the next.

## Closer to Allah S.W.T.

Giving Zakat improves confidence in God and brings you closer to Him.

## Rewarded by Allah s.w.t

Rewarded by Allah S.W.T.: The Prophet (PBUH) said, "Whoever gives away charity the size of a date, which is earned lawfully, since Allah only accepts the good lawful things, Allah will indeed take it with His right hand and cause it to grow for its owner, just as one of you raises his colt to the point that the charity will become like the size of a mountain."  
[Reported by Al-Bukhari and Muslims].

# Sins are Wiped away

Zakat purifies the giver's possessions as well as his or her spirituality. It instills self-control and demonstrates submission to Allah S.W.T

## MDC Token inflation

The supply of an MDC token is managed by burning tokens. By reducing the total supply, this helps regulate inflation and maintain or increase the token's value.

The inflation of the MDC token will be regulated by burning tokens when necessary.

The burning of MDC tokens will be achieved by sending them to a black hole wallet.

This statement explains that tokens are being removed from circulation by transferring them to an inaccessible address, commonly referred to as a "black hole wallet."

# Learn Islam & Earn

Learn & Earn Islam is a unique platform in the world, combining interactive and live Islamic education with rewards in MDC tokens. Users can explore various aspects of the faith, from basic to advanced concepts, through engaging live sessions while earning rewards for completing lessons and quizzes.

This innovative model offers a dual reward, both spiritual and financial, in line with Islamic teachings.

## **As mentioned in Surah Al-Baqarah (2:261):**

"The example of those who spend their wealth in the way of Allah is like a seed [of grain] that sprouts seven ears; in every ear is a hundred grains."

## **Additionally, Surah An-Nisa (4:114) states:**

"Whoever does that seeking the pleasure of Allah, We will give him a great reward."

**Learn & Earn Islam thus inspires a new generation to deepen their understanding of Islam through interactive and live sessions, while benefiting from a motivating reward system.**

# Why Blockchain

Cryptocurrencies and blockchain technology have exponentially gained popularity in recent years. We strongly believe that everyone can benefit from the technology. We are here to help Muslims take advantage of MDC and avoid the many financial infractions of the craze in the recent crypto market, with so many new crypto token launches occurring every day. Each coin offers a variety of solutions and financial exchange services, but most customers find that such currencies have a high rate of inflation. As a result, we have taken steps to break free from these common problems and avoid inflation. We intend to be the only crypto coin in the Muslim world (MDC complies with Islamic law), facilitating financial exchanges amongst Muslims, providing a hedge against inflation and drastically lowering transaction costs.

With the emergence of cryptocurrencies and blockchain technology, a community of shareholders may now directly influence the purpose of the money. MDC intends to use this technology to bring Zakat in front of each transaction through charitable efforts and community support. MDC will aid in defending your assets from inflation and facilitating interfaith communication. You can donate to charitable associations, bring all Muslims together, and get closer to Allah - all through MDC.

# The Background Technology

Blockchain technology is the driving force behind cryptocurrency's recent growth. Decentralization is the foundation of modern technology, improving security, privacy, and safety. The key attributes are decreasing corporate risk and providing transparency. Decentralization is essential to enable people from all over the world to better protect their rights. We are assisting a shift in this direction by accelerating the adoption of cryptocurrencies. Users benefit from blockchain technology as it gives end-users transparency, allowing them to review the history of information flow or financial activities. This technology will also be used by MDC to safeguard our token holders' data and communications.

# Tokenomics .

**Blockchain:** ETH (Ethereum)

**Total supply:** 5 Billion

- 41.5% Exchanges, liquidity and deflationary incentives
- 21% Islamic Fund wallet
- 16% MDC Team and Advisor's Funds
- 8.5% Founders and early Investors
- 6% Marketing
- 4.5% Ambassadors
- 2.5% Learn Islam & Earn

# Roadmap .

current phase

**Q3 - 2025**

Launch the MDC Platform.

**Q4 - 2025 (Coming soon)**

MDC exchanges listing.

**Q1 - 2026**

Launch learn Islam platform.

**Q1 - 2027**

NFT Launch project

# Conclusion .

Apart from the concept of mandatory payment, Zakat assists in getting rid of excessive wants and greed while it helps us learn self-discipline and honesty. Zakat means purification and expansion, referring to the practice of purifying one's riches and possessions by distributing a set amount to the poor and needy.

## **The coin creates and pays Zakat by Itself.**

The surroundings in which we live and work are a direct reflection of our attitudes, behaviors, and daily contributions. Human life is not meant to be squandered on egoism; it is intended to maximize benefits for everyone as a whole. Join MDC to contribute to a worthy cause and help the needy to accomplish the Five Pillars of Islam.
